RONEWA LESLEY MAFHUWA

Johannesburg, Gauteng 1804 | 076-458-5149 | mafhuwaronewa@gmail.com

Profile

- 03 March 2003
- Code 10(C1)
- 8044 Bacela Street, Orlando West 1804, Johannesburg

I am a goal-driven software engineer who enjoy participating in problem-solving workshops, I am fluent in HTML, SQL, Python(Basics), C#, JavaScript, and CSS programming languages. I possess practical working knowledge of relational databases using MS SQL, MySQL and Agile Development, I'm currently seeking a role to apply my knowledge, learn and add value to grow software development knowledge and skills while working as part of a dedicated team. Brings on board hands-on experience in both front-end and back-end development.

Experience

Application Engineer(Development)   04/2024 to 08/2024
Sybrin   Johannesburg

- · Troubleshooted bugs, debugged software, created code and developed applications using C#
- · Successfully built various screens for applications using JavaScript on the Sybrin platforms
- Evaluated emerging technologies for potential application within the business environment.
- · Used SQL to query Relational Databases
- · Gained extensive skills in testing using SOAP RESTful API through regular practice in trainings and projects
- · Used Goggle docs and Asana to collaborate, plan, manage projects execution efficiently
- · Communicated technical information to non-technical audiences.
- · Developed/configured experience cloud sites using Apex, lightning web components and VisualForce.
- · Developed and maintained Salesforce integrations with other systems (Slack and Outlook)

Application Support Engineer   09/2024 to 02/2025
Absa Africa Group (Employed through Sybrin)   Johannesburg

- Troubleshooting OS-level issues (e.g., permissions, process management, and logs analysis)
- Familiarity with command-line tools and shell scripting
- Troubleshooting connectivity issues in a client-server architecture
- Working knowledge of SQL for querying and managing databases (MS SQL).
- Supported the integration of applications with existing systems, enhancing operational efficiency and data
- Application monitoring and logging.
- Familiarity with CI/CD tools, such as Jenkins, GitHub Actions, or Azure DevOps.
- Ability to read and debug code in languages like C# (depending on the applications supported)
- Proficiency with ticketing systems such as ServiceNow to manage and track support Incident/Ticket.
- Knowledge of incident management and SLA tracking
- Generate Statements through Stored Procedures
- Maintain Server Health
- Performed recovery operations to restore systems following failures.

Software Develpment Module Tutor   02/2024 to 11/2024
Self Employed   Nelson Mandela University

- Supported students to reach curriculum goals with tailored coaching style.
- Employed listening and questioning strategies to diagnose student needs and monitor progress.
- Assist students with Software Development project Module.

Project/PortFolio Review

- View portfolio to see my projects(Pictures and Videos) using the link above

Skills

- Software Testing
- Javascript
- HTML & CSS
- ServiceNOW
- Resilient
- Attention to detail

- C# .Net
- ASP.NET CORE
- Agile Methodology
- Signal-R
- RestFul Api (PostMan)
- MVC
- SQL Server
- GitHub, Gitbash
- Office,PowerPoint, Word and Excel
- Scripting

- Problem Solving
- Critical thinking
- Teamwork
- Honesty
- Adaptability
- Development Documentation
- Knowledge of iot technologies
- Software engineering
- DevOps fundamentals
- CI/CD Pipelines

Education

Diploma: **Information Technology (Software Development)** **12/2023**
Nelson Mandela University Port Elizabeth

Physical Science & Mathematics & Engineering Graphic and Design **12/2020**
Nngweni Secondary School Makhado

Certifications

- Certificate of Course Completion IT Essential
- Certificate of Course Completion Introduction to Cybersecurity
- Designing Rest Apis(from LinkedIn Learning)
